# Finish

## nanolinx™

---

### ORIGINAL

- Using nanotechnology, Mirage creates a finish made of the smallest particles possible. **9 times smaller than a hair**, each particle molds perfectly to the shape of the hardwood floor, offering the **clearest and most flexible finish** in the industry
- **5 times more wear resistant** than most other residential finishes
- **Antimicrobial agents** for a more hygienic environment and an easier-to-clean floor
- **25 year warranty!**

## Glosses

### Cashmere®\*

- Matte and silky
- Appearance of an oiled floor
- Easy upkeep

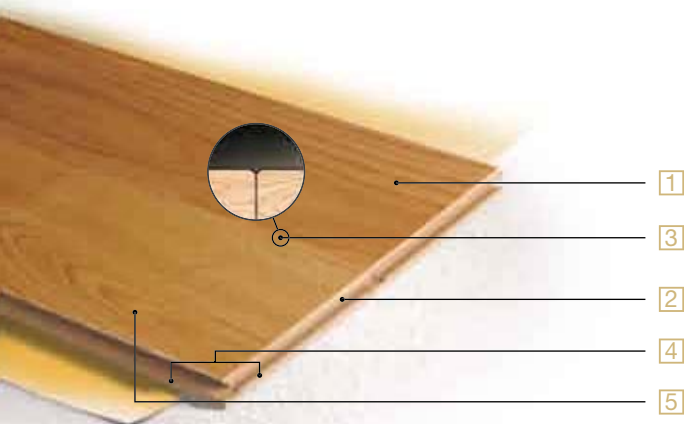

### Semi-Gloss

- Moderately shiny
- Enhances floor color

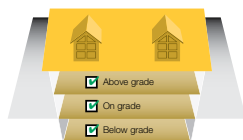

\* Registered trademark used under license.

Lock

Real Hardwood.  
A real snap to install.

- Installs without glue, nails, or staples over a recommended membrane on existing flooring, wood subfloor or concrete [with or without a radiant heat system]
- Each box contains 6 assorted lengths for a natural look and faster installation

Width	Thickness
4-5/16" [65 mm]	7/16" [11 mm]

#### 1 Great wear layer. Genuine hardwood

- Same full hardwood look
- Finish can be screened and recoated unlike comparable products from the competition
- The thickest wear layer in the industry for this type of product, dry-sawn for a natural look, without repetitive patterns

#### 2 Strong, stable, and ecological HDF core

- HDF is made with 100% post-industrial recycled wood fiber
- Stronger core for greater impact resistance
- Increased stability compared to other materials such as MDF
- Overall product less sensitive to humidity variations

#### 3 Micro-V joint

- On all 4 sides of the board, the smallest and most uniform eased edge in the industry!
- It provides a better-looking, better-performing solution that conceals minor subfloor irregularities

#### 4 Robust Rightloc™ system

- This ingenious system on all board ends and sides locks boards firmly together
- Fast and easy installation by only one person!
- No glue, nails, or staples required

#### 5 Uniform color

- Stain and finish are evenly applied on board surfaces and micro-V joints, giving Mirage Lock products the best natural appearance on the market

## Earth-friendly design!

### The greenest approach in manufacturing

- Mirage Lock products are made in North America from high quality wood that comes from certified, responsibly managed forests
- 6 times less hardwood required than conventional 3/4" solid boards
- Wood contents of the HDF are from 100% post-industrial recycled fiber
- Nontoxic hypoallergenic finish
- No volatile organic compound [VOCs] or formaldehyde in finishing products
- No dust from sanding or organic vapors from varnishing
- Counts toward LEED project points

### The greenest approach in installation and use

- Floor can be moved and reused elsewhere—perfect for renovation projects
- Can be installed over existing flooring materials by one person only
- No glue, nails, or staples required
- Faster floor installation and less labor, for lower installation costs
